

VAN MEDICAL JOURNAL

ARTICLE WITHDRAWAL / RETRACTION REQUEST FORM

1. Manuscript Information

Manuscript ID	
Manuscript Title	
Journal / Year / Volume / Issue / Pages	
DOI (if published)	
Corresponding Author	
Date of Submission of this Form	

2. Type of Request

	Request Type	Definition
<input type="checkbox"/>	Withdrawal	Manuscript has not yet been published. Request to stop the review/publication process.
<input type="checkbox"/>	Retraction	Article has been published. Request to formally retract the published article in accordance with COPE Retraction Guidelines.

3. Reason for Withdrawal / Retraction

Please explain in detail why you wish to withdraw or retract this manuscript. Attach supporting documentation if available (e.g., ethics committee decision, revised dataset, legal correspondence).

Category of Reason (check all that apply):

- Major scientific error or unreliable results
- Duplicate submission / redundant publication
- Plagiarism or unattributed use of third-party content

- Ethical violation (e.g., lack of ethics approval or informed consent)
- Data fabrication or manipulation
- Author dispute or unauthorized authorship
- Legal or confidentiality issues
- Other (specify above)

4. Author Declaration

By signing this form, the undersigned authors confirm that:

- We voluntarily request the withdrawal or retraction of the manuscript identified above.
- All authors listed on the manuscript have been informed of and have agreed to this decision.
- We understand that withdrawing the manuscript terminates the peer-review process and the article will not be considered for publication.
- If the article is already published, we accept that a "Retraction Notice" will be published in accordance with COPE Retraction Guidelines, and that the original article will remain in the journal's database clearly marked as retracted.
- We acknowledge that retraction notices are permanent and indexed by major databases.

5. Signatures of All Authors

All authors must sign. If an author is unavailable or refuses to sign, the corresponding author must provide an explanation in Section 3.
